## BEST EVIDENCE OF 9/11 COMPLICITY

media focus on demolition theories  
and “no plane” hoaxes, not best evidence

official story	incompetence theory	blowback theory	proven beyond reasonable doubt		might be true but not provable	the controlled demolition of 9/11 truth disinformation that discredits	
<p>The official story claims 9/11 was a surprise attack and a massive surveillance bureaucracy is needed to prevent a repeat.</p> <p>This lie was the pretext for creating the Dept. of Homeland Security.</p>	<p>The media, both political parties and many liberals claim incompetence is the reason that 9/11 happened. Government operations are not perfect but incompetence cannot explain the blocking of efforts to prevent the attacks nor the coverup afterwards.</p>	<p>Most Bush critics argue 9/11 was “blowback” – revenge for US policies in the Middle East. While there are many motivated to retaliate for US policies, the suppression of warnings just before 9/11 were not coordinated by Muslims.</p>	<p><b>9/11 allowed to happen</b></p> <ul style="list-style-type: none"> <li>• very specific warnings from US allies were suppressed</li> <li>• FBI headquarters blocked agents investigating flight schools before 9/11</li> <li>• US / Saudi / Pakistan / Taliban / al-Qaeda ties</li> <li>• “put options” betting on American and United stock shows foreknowledge</li> <li>• Bush read “Pet Goat” story to school kids instead of ordering military response</li> <li>• During attacks, trillion dollar warning systems (Air Force and NSA) not used to warn White House military office</li> </ul>	<p><b>Air Force on 9/11?</b></p> <ul style="list-style-type: none"> <li>• Air Force / NORAD war games that confused the air defenses on 9/11</li> <li>• CIA’s “plane into building” exercise during attack - at NRO headquarters near Dulles Airport. National Reconnaissance Office</li> <li>• some fighter planes moved out of region just before 9/11</li> <li>• fake blips on radars diverted interceptors</li> </ul>	<p>remote control of the four Boeings: the “hijacking the hijackers” theory. It is possible, but not provable, that Boeing’s “auto-land” uninterruptable autopilot was used. The first plane, Flight 11, flew over Indian Point nuclear power station. Allowing 9/11 to happen risked letting the hijackers fly into the nuke if the plane wasn’t remotely controlled. Flight 77 was flown into the under reconstruction, mostly empty Pentagon sector, not Rumsfeld’s office or National Military Command Center.</p>	<p>It is good the twin towers stood as long as they did after the collisions, which allowed most people below the impacts to escape. Firefighters watched the twin towers and WTC 7 bulging and leaning before they fell down. WTC 7 had a 20 story hole from part of a tower falling onto it. The “thermite” in dust samples was probably burnt aluminum from the cladding on the towers.</p>	<ul style="list-style-type: none"> <li>• no plane hit the Pentagon: a hoax created by Donald Rumsfeld on October 12, 2001</li> <li>• no planes hit WTC less popular than Pentagon “no plane”</li> <li>• “no phone calls” hoax alienates most 9/11 families from working with 9/11 truth movement</li> <li>• inclusion of white supremacist “American Free Press” as credible source of info</li> </ul>

## 9/11: a political Rorschach test

Most perspectives about 9/11 contain pieces of truth but do not have the whole story.

The official story that there are Muslims who want to attack the US has some truth but ignores how that anger is a reaction to US intervention in the Middle East. The 9/11 Commission falsely claimed the feds were too incompetent to “connect the dots” and a surveillance society is needed to prevent a repeat attack.

Many liberal progressives highlight “blowback” — the attackers were motivated by revenge for US policies. But blowback alone does not explain how the attacks were allowed to happen. US allies provided specific warnings: who, what, where and when. The FBI agents who tried to stop the attacks were blocked by headquarters, which was obstruction, not incompetence.

The 9/11 truth movement correctly says there was a deliberate conspiracy but their most popular claims contain discrediting disinformation. There are conspiracies to create fake claims of conspiracy to discredit looking at actual conspiracies. Ridicule is an effective tool to ensure most people won't look closely.

The media correctly state that Flight 77 hit the Pentagon, thermite isn't used to demolish buildings and the firefighters watched the twin towers and Building 7 lean before they fell down. They ignore the suppressed warnings, the best evidence of complicity.

Neither the media nor some of the conspiracy crowd highlight the CIA's “plane into building” exercise and the NORAD war games that morning — the real failure to connect the dots.

## Crossing the Rubicon:

### Simplifying the case against Dick Cheney

by Michael Kane

[fromthewilderness.com/free/ww3/011805\\_simplify\\_case.shtml](http://fromthewilderness.com/free/ww3/011805_simplify_case.shtml)

### Means: Dick Cheney and the Secret Service

Dick Cheney was running a completely separate chain of Command & Control via the Secret Service, assuring the paralysis of Air Force response on 9/11. The Secret Service has the technology to see the same radar screens the FAA sees in real time. They also have the legal authority and technological capability to take supreme command in cases of national emergency. Dick Cheney was the acting Commander in Chief on 9/11.

### Motive: Peak Oil

At some point between 2000 and 2007, world oil production reaches its peak; from that point on, every barrel of oil is going to be harder to find, more expensive to recover, and more valuable to those who recover and control it. Dick Cheney was well aware of the coming Peak Oil crisis at least as early as 1999, and 9/11 provided the pretext for the series of energy wars that Cheney stated, “will not end in our lifetime.”

### Opportunity: 9/11 War Games

The Air Force was running multiple war games on the morning of 9/11 simulating hijackings over the continental United States that included (at least) one “live-fly” exercise as well as simulations that placed “false blips” on FAA radar screens. These war games eerily mirrored the real events of 9/11 to the point of the Air Force running drills involving hijacked aircraft as the 9/11 plot actually unfolded. The war games & terror drills played a critical role in ensuring no Air Force fighter jocks — who had trained their entire lives for this moment — would be able to prevent the attacks from succeeding. These exercises were under Dick Cheney's management.

## 9 1 1 disinformation

hoax	target audience
no plane hit Pentagon most important hoax	inside the Beltway political & military
no phone calls	9/11 family members
demolition theories	academia, technical professionals
Holocaust denial “the Jews did 9/11”	New Yorkers peace movements
no Arabs involved	US allies, police & intel investigators
Peak Oil denial	block understanding Peak Oil – 9/11 motive
no planes anywhere	everyone

9/11 research is a rabbit-hole of Byzantine complexity full of snares and delusions and peopled with false friends, lunatics, earnest lost souls and a few heroes. It's not necessary to understand all the nuances of science and bureaucracy that allowed the government to get away with mass murder, blame it on swarthy foreigners (of whom many are eager accomplices) and use the incident as (in the words of the Cheney, Jeb Bush et al cabal, the Project for a New American Century) “a new Pearl Harbor.” At this critical juncture in human history, it's only necessary to understand why they did it. The motive was Peak Oil, a disaster which will affect everyone on the planet, about which all must enlighten themselves and for which all must prepare.
